Worldwide intraregional and interregional air passenger traffic volume distribution

Air traffic distribution (2019)

<table>
<thead>
<tr>
<th></th>
<th># of passengers (billions)</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Worldwide</td>
<td>4.2</td>
<td>100%</td>
</tr>
<tr>
<td>Intraregional (within a region)</td>
<td>3.6</td>
<td>87%</td>
</tr>
<tr>
<td>Interregional (between regions)</td>
<td>0.6</td>
<td>13%</td>
</tr>
</tbody>
</table>

Passenger Distribution within a region:
- Highest: Asia/pacific (40.5%)
- Lowest: Africa (1.9%)

Passenger Distribution between regions:
- Highest: Between North America and Latin America (8.3%)
- Lowest: Between Africa and Latin America (0.1%)
Figure 1. Distribution of worldwide passenger air traffic intraregional and interregional in 2019.
